

## COEMAR TECHNICAL TIPS

FIXTURE:	<b>Panorama Power MK2</b>	DATE:	15/06/2007
TITLE:	Filters Kit for Panorama Power MK2	FROM:	info.design@coemar.com
REF:	Coemar internal communication no. 05/2007		

### 3 - Filters Kit for Panorama Power MK2

<b>ISSUE</b>	When originally designed, the colour tonalities obtained with the Panorama Power MK2 were slightly different than the previous Coemar Cycs (SuperCyc, Panorama, no MK2).
<b>SOLUTION 1</b> (to obtain Coemar Cyc standards)	To obtain colour tonalities that match the Coemar Cyc standards, you need KIT144.
<b>SOLUTION 2</b> (to obtain original Panorama Power MK2 colours)	To obtain colour tonalities that match those originally designed on Panorama Power MK2, you need the kit of filters GA-526, GA-527, GA-528, GA-529, GA-530, GA-531.
<b>SOLUTION 3</b> (to obtain darker colours)	To obtain darker colour tonalities, you need KIT145.
<b>AVAILABILITY</b>	Starting from <i>June 2007</i> , KIT144, KIT145, and the kit of filters GA-526, GA-527, GA-528, GA-529, GA-530, GA-531, are available from Coemar upon request. Starting from serial no. CO9823050407001, the KIT144 is standard on all fixtures (from June 2007). Prior to serial no. CO9823050407001, the kit of filters GA-526, GA-527, GA-528, GA-529, GA-530, GA-531 was mounted as standard (from July 2005 to June 2007).
