COEMAR TECHNICAL TIPS						
FIXTURE:	Panorama Power MK2	DATE:	15/06/2007			
TITLE:	Filters Kit for Panorama Power MK2	FROM:	info.design@coemar.com			
REF:	Coemar internal communication no. 05/2007					

3 - Filters Kit for Panorama Power MK2						
ISSUE	When originally designed, the colour tonalities obtained with the Panorama Power MK2 were slightly different than the previous Coemar Cycs (SuperCyc, Panorama, no MK2).					
SOLUTION 1 (to obtain Coemar Cyc standards)	To obtain colour tonalities that match the Coemar Cyc standards, you need KIT144.					
SOLUTION 2 (to obtain original Panorama Power MK2 colours)	To obtain colour tonalities that match those originally designed on Panorama Power MK2, you need the kit of filters GA-526, GA-527, GA-528, GA-529, GA-530, GA-531.					
SOLUTION 3 (to obtain darker colours)	To obtain darker colour tonalities, you need KIT145.					
AVAILABILITY Starting from June 2007, KIT144, KIT145, and the kit of 526, GA-527, GA-528, GA-529, GA-530, GA-531, are ava Coemar upon request. Starting from serial no. CO9823050407001, the KIT144 is on all fixtures (from June 2007). Prior to serial coefficients are comparable of the coefficients of the
