ParLite LED RGBW with frontal support accessories holder

Introducing

• Parlite led available both in indoor **IP20** and in **IP65** outdoor version, **fanless** (forsilent operation) is suitable for entertainment lighting (theaters, television studios, events) and suitable for architectural illumination (shopping center, conference room, buildings, monuments, etc.)

Long-lasting **aluminum compact body**, high quality LEDs and lenses, exclusive Coemar Patent Pending control system: **AAPC** (Active Automatic Power Control) guarantee long life and high lighting performance with low power consumption.

The numerous optics available, the wide range of color temperatures or colors, colors rendering **(CRI) 80+ or 90+**, different fixing options and the numerous accessories available, make this projector suitable for any customer need. ParLite Led is available in two different mounting options to fit any installation:

• **ParLite LED Portable**: double yoke for easy ground standing or truss hanging; 1.8m power cable with Bare Ends and DMX in/ thru chassis-mount XLR5 connectors.

• **ParLite LED Track Mount**: eutrac 3-circult + data and a single cable between fixture and track adapter for power and DMX.
