SoftLite LED T +

Introducing

• SoftLite Led, the 250 W diffuse led light projector equipped with the revolutionary and unique reflected illumination system. Thanks to its innovative optical system, SoftLite Led delivers an extremely uniform output with incredibly soft shadows and a perfect color mixing (RBGW version): this is the reason why this fixture is considered the perfect

LED replacement for traditional cyclorama or fill lights. SoftLite Led provides different DMX control modes to allow the quick setup of the fixture in various application situations and a smooth 16 bit dimming with a choice of 5 curve options available (linear, logarithmic, exponential, halo and standard). The PWM frequencies can be adjusted from 600 up to 20.000 Hz either on board or via DMX for flickerfree performance and this makes the SoftLite Led the perfect tool for professional lighting both in broadcast and theatre applications. The extruded aluminum and steel housing integrates 4 different fan speed setting (silent, studio, auto, DMX regulated), that enables a low noise operation while a bright LED display permits an easy and intuitive configuration. The double dissipation system with air forced efficient heat pipe cooling and the adjustable fan ensure optimum operation without any danger of overheating. The fixture comes with either a manual or pole operated yoke. A set of accessories is also available to allow the control of the beam. Available in three different versions: RGBW, Tungsten and VariWhite.

Key Features

	 96 Tungsten Cree LEDs
CRI	● CRI> 90
ССТ	• CCT Fixed White 3.200K
	 Reflection technology for a fully uniform illumination
	 Horizontal beam angle: 65° (1/2 peak angle) - 111° (1/10 peak angle)
\bigcirc	Aluminum extruded and steel body
	 Tempered frontal polycarbonate (UV)
	 Custom color on request (optional)
P	 Manual (standard) or Pole Operated Pan-Tilt (Optional)
Œ	• European Conformity certification

General

LED Source	96 Tungsten Cree LEDs
• CCT Range	• • • • Flxed White 3.200K
Color Rendition Average	CRI> 90
• Dimming	8 or 16 bit, 5 selectable curves: Exponential, Logarithmic, Linear, Halo and Standard
• Strobe	Synchronized, random or pulse electronic strobe
Available Optics	Horizontal beam angle: 65° (1/2 peak angle) - 111° (1/10 peak angle)
Camera flicker control/Hz range	
Calibrated Cob	
• L80 Rating	50.000 Hours
(hours to 80% output)	
Electrical	
 Voltage Input 	90-264V, 50/60Hz, auto-sensing
Power Consumption	250W Maximum - 1.2 A at 230 V, 2.43 A at 115V - cosφ 0,9
Power Connection	In and Out PowerCON TRUE1 Top connectors, 1,5 m. detachable POWERCON power cable with bare ends
Data Connection	In and Out DMX 5 pin locking XLR connectors
	······································
Thermal	
• Ambient Operating Temperature	0°C - +40°C (32°F - 104°F)
• Fan (controllable)	Yes, 4 different settings: Silent, Studio, Auto, DMX Regulated
	res, 4 different settings. Silent, Studio, Auto, DMA Regulated
Control	
Protocols	DMX-512, RDM (Remote Device Management), Wireless (optional By LumenRadio)
 RDM configuration 	Yes
DMX Channels	5/1
• Display	Graphic OLED with on-board selector for quick setting
 Software Upload 	Through DMX input (With RDM inteface code AC10011A001)
Physical	
Physical Mounting Options	Yoke (Manual or Pole Operated), 2 ground-standing feet
	Yoke (Manual or Pole Operated), 2 ground-standing feet Aluminum extruded and steel body - Tempered frontal polycarbonate (UV)
Mounting Options Materials	Aluminum extruded and steel body - Tempered frontal polycarbonate (UV)
 Mounting Options Materials Weight 	Aluminum extruded and steel body - Tempered frontal polycarbonate (UV) 9.6 Kg / 21.16 lbs
